AUTOPSY REPORT

(Series No. 20) (NOT IN 140 SERIES)

Name: Body No. 1, identified as William Ray Lawrence  
Date of Autopsy: August 10, 1973, 12:30 p.m.  
Place of Autopsy: Wyman Roberts Funeral Home, San Augustine, Texas  
Authority: San Augustine County, Texas Justice of the Peace C. A. Renfroe #1  
Autopsy Prosector: Jack Pruitt, M. D.

CIRCUMSTANCES: Body found buried near Broaddus, Texas, on the afternoon of Thursday August 9, 1973.

GROSS EXAMINATION: The unclothed body is fully wrapped in a thick transparent plastic sheet and tied with several lengths of thick cord resembling venetian blind cord about 1/8 inch in diameter. The body is that of a slender white adolescent male 68 inches in length, the weight not estimated. The scalp hair is light brown and straight, about shoulder length, 12 - 15 inches. The wrists are secured behind the body with fabric adhesive tape. The legs are similarly taped together just above the ankles. A noose of thick cord like that described around the original plastic wrapping is secured around the neck, typical of a "hangman's noose", with a loose end 12 inches long extending down the back. The tissues of the neck are compressed, and indicate that this was applied tightly before death.

The skin is essentially intact over the entire body, although very slippery and having advanced postmortem decomposition, and there is no evidence of any penetrating wound. The outer skin surfaces over the fingers and toes have sloughed away, and make fingerprint identification impossible, according to two Texas Department of Public Safety Investigators present at the scene. The facial features can be recognized, although the nose has advanced decomposition, the bones intact, no recognizable evidence of trauma. Two teeth are out of their sockets, numbers 1 and 8 as indicated on the accompanying dental chart, postmortem in character, apparently all 32 teeth having erupted and having no evidence of decay or filling (see dental chart for description). The penis, scrotum and anus are intact, without evidence of mutilation, the pubic hair intact and recognizable.

The heart, lungs, and abdominal organs are shrunken and pasty, virtually unrecognizable, but without evidence of severe antemortem trauma.

According to information supplied by the father and the dentist, as well as a photograph published in the Houston Post, this body was identified as that of William Ray Lawrence, 15-year-old white boy. The condition of the body is consistent with a postmortem interval of approximately one month.

MICROSCOPIC EXAMINATION: Microscopic examination of the solid organs is of no value because of the severe postmortem decomposition of the tissues.

PATHOLOGIC DIAGNOSIS AND CAUSE OF DEATH: Death by strangulation, postmortem interval of about one month.

FORM 1420 COLWELL CO., CHAMPAIGN, ILL.

I referred this patient over to Dr. B.J. Kunk. I doubt if he ever went to his office, because I never received any follow-up X-rays from his office concerning endodontic treatment.

Case No. DID NOT COME TO 7286Decedent: WILLIAM RAY LAWRENCE Race W Sex M Age 15Address: 310 West 31st St., HoustonDeath: FOUND 8-9-73 Approx. Time 8:00PM A.M.  
P.M.Place of Death: 2½ miles South of Broaddus, Texas off FM-3185, St. Augustine County

Place of Inquest: \_\_\_\_\_

Date and Time of Inquest: \_\_\_\_\_ A.M.  
P.M.Location, Position, and Surroundings of Body: SEE BELOWClothing: NAKED- Face up in graveInformation: St. Augustine County Dep. Sheriff RICHARD DAVIS furnished the following info. on 8-11-73 at 7286.

St. Augustine County Sheriff JOHN HOYT, Box 61, St. Augustine, Texas, was directed to a gravesite near the above location by WAYNE HENLEY (suspect in the above case) on 8-9-73 about 8:00PM. HENLEY identified the gravesite as being at a point where 4 sticks were crossed on the ground. Beneath the crossed sticks was a thin layer of earth beneath which there was a plyboard. Beneath the plyboard was a hole in the ground into which had been placed a substance similar to lime, along with a plastic covering, securely taped, containing the body of the decedent. The decedent's body had been rolled in the plastic covering, but none of the lime substance was within the plastic covering. A cord tied in a "hangman's noose" was around the neck of the decedent. His ankles were bound together with silver colored ~~xxxx~~ air conditioning tape. His wrists were taped behind his back with similar tape. The grave was about 18"-19" in depth and there were two cinderblocks in the grave.

Photos were taken at the scene by D.P.S., Austin.

An autopsy was performed at the Wyman Roberts FH, St. Augustine, Texas on-8-10-73 by Dr. JACK PRUITT of Lufkin, Texas. DX: STRANGULATION.

DEP. DAVIS SAID THAT HENLEY MADE THE STATEMENT THAT ONE OF THE "UNKNOWN #20, #21 OR #22 COULD BE A BOY NAMED "GARCIA."

The cord found around the decedent's ~~xxxx~~ neck was tagged at 7286 under Property: NONE) the name WILLIAM RAY LAWRENCE.

Transferred to Morgue by: SUBSEQUENT TO THE AUTOPSY IN ST. AUGUSTINE THE BODY OF THE DECEDENT WAS RELEASED BY ST. AUGUSTINE COUNTY AUTHORITIES TO FOREST PARK FH. Funeral Home Conducting Service: Forest Park FH
